Message from Hon'ble Vice Chancellor

Recognizing potential of Ayurveda in child health care, all stakeholders have the mandate to play a vital role to explore new horizons to evolve protocols for protection, prevention, promotion and management of pediatric health problems. It gives me immense

pleasure to organize wonderful event at our university in auspicious presence of worldwide igniarus at one platform. Outcome of this event will indeed open the Pandora of opportunities for all stakeholders to make concrete advancements in these fields.

Prof. (Vd.) Pradeep Kumar Prajapati

Introduction

Children are the most vulnerable members of the population. Adverse social and economic conditions cause greater suffering to this group than to the other members of the community. Children are vulnerable primarily because they depend on a nurturing adult particularly their mothers to survive. These factors are compounded by some socio cultural realities of child rearing which has negative effect such as scarce food, poor access to health facilities etc.

Access to quality child health care remains a problem for most families in developing countries like India. Health facilities are far from where they live, services are inadequate or the cost of care is unaffordable that in turn worsen poor child health in the country.

Although there is remarkable decline in morbidity and mortality caused by poor pregnancy and perinatal care in mother as well as various infections and malnutrition in children in last few years but the statistical data draw attention on proper and effective management of the child health care. This goal of comprehensive and integrated child health care cannot be achieved without association and active involvement of manpower, technology & wisdom of Ayurveda.

Ayurveda the age old and time tested system of ancient India has great potential to deal with such health problems. We have plenty

references and literature for child health care in our ancestral doctrine which may be a gold standard for child health care. Rajasthan has a largest network of AYUSH practitioners and infrastructure serving child health care in the state. That's why the idea generated to organize an International conference to provide an interactive platform for the stakeholders to acquiring extensive exposure on manifold issues in the child health care and share the meaningful experience in this concern.

About University

Dr. S.R. Rajasthan Ayurved University, Jodhpur was established by the Govt. of Rajasthan in 2002 and was made functional since 2003-04, situated in village Karwad, Jodhpur on National Highway No. 65 (Nagaur Highway). This University is the second Ayurved University and first AYUSH University of the world conducting Ph.D., M.D./M.S. in Ayurveda and Homoeopathy, BAMS, BHMS, BUMS and BNYS. B.Sc. (AYUSH Nursing), DAN&P and Certificate Courses in Ksharkarma, Panchkarma & Osteopathy and Yoga. University has state level jurisdiction with affiliation of 45 AYUSH institutions including 7 Govt. Ayurved Colleges of the state. A Popular **Suwaprashana Programme** in 7 City Centres including AIIMS Jodhpur is one of the regular activities of the University. Panchkarma Centre of University has been upgraded as **International Centre of Excellence** by the Govt. University runs 220 bedded Hospital with multispecialty clinics.

About Jodhpur

- **The Historical City** : Jodhpur is the second largest city of Rajasthan state. It was founded by Rao Jodha in 1459 which represents legacy of fighters of Marwar region. It is known as Blue City due to the blue colored land scape. This is also known as Sun City for the bright sunny weather it enjoys all over year.
- **Tourist Destination** : Jodhpur is a popular tourist destination featuring many places, forts, palaces set in the stark landscape of the desert.
- **Educational Hub** : It is also an education hub of West Rajasthan having several globally reputed research centers like CAZRI, AFRI, ICMR-NIIRNCD, DRDO, NIFT, FDDI, NLU, Police University, Agriculture University and IIT.
- **Medical Hub**: Also the city is well known for its medical facilities in the state as the Jodhpur felicitated with AIIMS, Ayurved University and Medical college.

CONNECTIVITY

Jodhpur is a well connected city with Rail, Road and Air. Its own domestic airport is located around 5 km from the city center and 30 Km from university. There are direct flights from Delhi, Mumbai, Jaipur, Indore, Hyderabad, Bengaluru etc., and several cities are available on daily basis. The city is also well connected with road and super deluxe and Volvo coaches are available for Delhi, Jaipur and many cities. The Sun City is well connected with Rail route with all four metro cities of India.

CLIMATE

Generally the climate of Jodhpur is hot and dry but it varies by various seasons. Winter enters the city from November to February. In this season the maximum temperature is around 24°C and the minimum temperature is around 10°C. So woolen clothes may require during stay here in winter.
