About the Iswar Saran Degree College, University of Allahabad

Iswar Saran Degree College is a distinguished constituent PG College of the University of Allahabad, which was established in 1970 under the auspices of Harijan Sewak Sangh. The college owes its inception to the visionary Munshi Iswar Saran, a close confidant of Mahatma Gandhi. The profound connection between Munshi Ji and Mahatma Gandhi is exemplified by the latter's two visits to the campus, bestowing upon our institution a heritage of great significance. In homage to its founder, the society was later renamed as Iswar Saran Ashram. Recognizing its academic excellence, the University Grants Commission (UGC) has conferred the esteemed 'College with Potential for Excellence' (CPE) status upon Iswar Saran Degree College. The college is steadfast in its mission to impart knowledge, skills, values, and character to students, preparing them to confront the ever-evolving global challenges of life. Beyond conventional courses, the college offers a diverse array of certificate programs that equip students to navigate life's challenges and contribute meaningfully to society.

About the Department of Biochemistry

In view of the growing importance of Biochemistry both in basic sciences and in broad-based disciplines. Iswar Saran Post Graduate College, Prayagraj established the Department of Biochemistry in 2018 under the leadership of Principal Prof. Anand Shankar Singh. Approximately 100 students are currently enrolled in different classes. Various researches are ongoing in specialized field of Clinical Biochemistry, Human Health & Disease, Biochemical Analysis, and Molecular Genetics in Human health.

About the Event

This national symposium will provide an excellent opportunity to participate and learn advanced strategies and ideas about modern clinical practice in Panchakarma and Ayurveda. Panchakarma is a penta bio-purification that includes Vamana, Virechana, Basti, Nasya and Raktamokshana. Panchakarma helps in bringing accumulated toxins into GI tract and removes from the body through nearest route and helps in re-igniting the digestive fire and brings about balance of the Doshas. As a results disease-causing complexes from the body are eliminated and prevents disease recurrence and development. Renowned experts from different fields including Professors, Doctors, Researchers and clinical practitioners, will share knowledge and expertise in the prevention and cure of modern health challenges.
