Message

Nadi Parikshan is a traditional *Ayurvedic* diagnostic method. This is the symbol of our dedication to advancing both convention wisdom and contemporary developments in the health care industry. *Nadi Pariksha* is extremely important for comprehending the subtle energy that control all bodies and offer insightful information about once health and overall wellbeing. It gives me immense pleasure that the P.G. department of *Kriya Sharir* PGIA, DSRRAU, Jodhpur in collaboration with *Mahanagar Ayurved Seva Sangh*, Nashik is organised *Nadi Parikshan* workshop. It is my sincere hope that this workshop discussion will yield helpful suggestions. I hope that this workshop will be a huge success.

Prof. (Vd.) Pradeep Kumar Prajapati
Hon'ble Vice –Chancellor
DSRRAU, Jodhpur

About the Workshop

Ayurveda has rich experience in *Nadi*-based diagnosis but it is subjective in nature and depend on skill of the physician. Lots of researches has been done in recent years which revalidated its authenticity. Now each and every scholar have keen interest to learn it but they are not having proper Guru for this. Therefore, Post Graduate Department of *Kriya Sharir* of Post Graduate Institute of Ayurveda, of Dr. S. R. Rajasthan Ayurved university Jodhpur is planned a “Two Days National Workshop cum Training Programme on *Nadi Pariksha*” for all graduate, post graduate, scholars and *Ayurveda* physician & academician to learn the *Nadi Pariksha*. This two-day workshop is not only given theoretical knowledge in the field of *Nadi Pariksha* but also provide practical training too. In the practical section all the participants will be witnessed with the live demonstration on *Doshaj Nadi*, *Dhatu Nadi* and *Avyava Nadi Parikshan* on Participants. By which all of the participants will be able to do *Nadi Pariksha* and make the proper assessment of *Doshas* and diseases too. On this basis the *Samprapti Vighatan* of the disease will be become quite easy to treat the disease with its root. Along with this query session is also arranged on the second day of workshop to solve the queries if any.
